June 12, 2020

Dear Families;

A warm welcome to all kindergarteners! We are so excited that you will be joining the Buckingham learning community in September. Entering kindergarten is the important first step in a child's educational journey. It's a time for students to expand their love of learning, their general knowledge, and their ability to get along with others. Typically, this time of year we would be welcoming families to the school for a 'meet and greet' and tour, but unfortunately that can't happen in the same way this year.

For the first time ever, we are having a virtual welcome! Please share this [video](#) with your child so that they are familiar with the school and staff that will supporting them at Buckingham. Additionally, we have attached slides that introduce your child to some of the students that will be starting kindergarten at the same time.

Please be on the lookout for gradual entry information coming via email the last week of August. We look forward to meeting you all in September!

The Buckingham Staff
